

ORION SUPPORT PILOT — SYNTHETIC TEST SOURCE

Start date: 2 November 2026. Duration: six weeks.

Approved budget: CAD 12,000. Owner: Maya Chen.

Initial scope: English-language, text-based PDF documents.

Maximum PDF size: 25 MiB. Scanned documents require OCR, outside pilot scope.

Success targets: 95% task completion; median answer latency under two seconds.

Risk: misleading answers when requested information is absent.

Mitigation: explicitly state when the source does not provide an answer.

SECOND PAGE — FINAL DECISIONS

Deployment region has not been chosen.

A public launch requires approval after pilot evaluation.

No customer data is included in this synthetic source.
